

PENSION PILOT – Software for Illinois Police and Fire Pension Funds

While many other companies have “bailed out” of serving Illinois pension funds, FVL Software still provides the latest in pension management software. Does your method of tracking participants provide these time-saving benefits?

- ✓ Instant access to more than 25 standard forms and reports
- ✓ A “word and phrase searchable” copy of the state statutes
- ✓ Online access to all the current state statutes
- ✓ A place to track and verify fund asset allocations
- ✓ Permanent and forecasted (temporary) benefit calculations
- ✓ Flexible label and envelope printing
- ✓ Automated agenda creation
- ✓ Instant creditable service reports
- ✓ Digital archiving of fund minutes
- ✓ Connectivity to image management software
- ✓ Seamless export of data for the DOI annual statement

If you out-source your management, do you see your expenses creeping up year after year? Are you willing to live with the fact that getting even basic information might mean a delay of hours – or longer? With Pension Pilot there are no monthly charges, just a one-time purchase price of less than \$1000 and technical support (if, and) when you need it.
